

Alabama-Mississippi Clean Marina Pledge

The Alabama-Mississippi Clean Marina Program promotes and celebrates the voluntary adoption of measures to reduce pollution from marinas and recreational boats. Designated “clean marinas” are recognized as environmentally responsible businesses.

As the first step toward achieving Clean Marina status,

(name of marina)

pledges its commitment to controlling pollution and erosion at its facility and to promote water-protective behavior with the boating public.

By pledging this support, the staff and management of the marina will focus on improving water quality associated with:

- Vessel cleaning and repair
- Fuel storage and transfer
- Sewage disposal
- Solid, liquid and hazardous wastes
- Stormwater runoff
- Marina management

We are dedicated to the issues identified in the Alabama-Mississippi Clean Marina Guidebook. Within one year of the date below, we will implement appropriate pollution prevention practices, and will apply to the Alabama-Mississippi Clean Marina Program for recognition as a designated Clean Marina.
